I currently own a 2015 Nissan Pathfinder that I purchased in January 2015

VIN – 5N1AR2MM5FC623359

114,524 miles

I've taken my Pathfinder to the Fargo, ND Nissan dealer several times for general repairs and upkeep. And I remember asking the service check-in guys on duty at the time, several times, about a shutter in the transmission while going in low speed. And they keep saying that they have never heard of any issues. When in fact, I've seen people discuss it online (attached paperwork) and now the class action settlement. I never pursued it more because the service guys at Fargo Nissan kept saying that there was no issue and they never heard of such a thing. They never wanted to take it out for a test drive to see what I was talking about either.

This might apply to other Pathfinder owners who asked their dealer about the issue, but never got a response.

I haven't submitted any other objections in the last 5 years

I won't be able to attend the fairness hearing and I don't have separate counsel

Greg Grenz

2015 Nissan Pathfinder

Sport utility vehicle

The 2015 Pathfinder comes with a 3.5-liter V6 that produces **260 horsepower**. A continuously variable transmission (CVT) is standard, which Nissan updated for 2015 with preprogrammed "shift points" to help it feel more like a conventional automatic transmission.
